

Charles Hatchett
Candidate for 1st District Congress

I want you to pretend the next few minutes that we are all Americans without a party affiliation. The founding fathers formed our country by signing documents to establish a new nation and no one put a party affiliation with their signature.

In Murray, Kentucky there is a billboard flashing that has 2 Chronicles 7:14 on it. The verse says, "If my people will humble themselves and pray I will heal their land." Over 200 years ago our people were servants to a King, the King of England. The King put an unfair tax on the servants. So the people, the servants, decided they wanted to form a new nation where the people were the Kings and later the government was the servant. Government was formed to restrain evil from the Kings. Alben Barkley was a servant of the people. He was born a short distance from here in Graves County. In May of 1948 Alben Barkley was the running mate of President Truman. Alben Barkley humbled himself and prayed about a situation that happened quickly. The people of Israel suddenly were before the U.N. for a vote yes or no for them becoming a nation. President Truman was studying the Bible. Alben Barkley went to him and begged him to vote yes for Israel to become a nation. Barkley said this is of God. God will bless those who bless Israel. Truman said, our allies want me to vote no. Both men were sympathetic to the Jewish people because of the awful things done to them during World War II by the German army. Truman said I was going to vote no but because of you Alben, I will vote yes but God will have to help them because no one else will. These two men fulfilled Biblical prophecy and Israel became a nation.

Did God heal our land after that? In 1951 McCracken County #1 per capita income due to atomic boom town Paducah, TVA built the dam and set up the development of the Calvert City Chemical complex number one energy source. Kentucky coal millionaires with mines located in Greenville, Madisonville, Nortonville, Providence, Sturges, Paradise, and Dawson Springs. Oil was being

drilled in Henderson, military uniform contracts at Curlees and Merit Clothing, Mayfield, Kentucky. Fort Campbell expanded, and Deena Lamp provided 1,500 jobs in Arlington, Kentucky. Kentucky Clay was mined in Graves and Carlisle County. Also Spar mined in Crittendon County.

Good paying jobs throughout the district. The servant Barkley was making a speech and his final words were "I'd rather be a servant in the House of the Lord than to set in the seats of the mighty" and he died. These words are on the Jefferson Street Monument in Paducah. Barkley was a good servant to the people of Western, Kentucky.

The Kings and Queens of Western, KY found favor from the good servant. Even today we still live under God's grace given because of Barclays' love for his constituents. He was born and raised in Western, KY, bought his dream home here and was buried here. Barkley was pro Jesus Christ, pro Israel, pro life and pro people in his district. What a man! What a servant! Alben Barkley extended his self past his time.

Time has passed and now the servant has given the kings jobs away to slave wages paid in China, Mexico, India and other Asian countries. Corporate entities have been given contract and favors that have taken the Kings wealth and our homeland is in mortgage to foreign lands. The servants have voted themselves raises up to \$174,000 per year while the kings and queens struggle to make 30,000 per year. Some of the kings have lost their job to the servants trade agreements and they are homeless. Has a nightmare replaced the American Dream? The access point for the stealing of America Wealth has been Washington, D.C. and it is time we change the access point to the district.

The servant or congressman needs to have a wise council of 10 people. A small city mayor has a city council to help check and balance his action. We can no longer trust a congressman with 30 counties and no control on what he's doing. Ten kings or people sitting on the affairs and doing it from the district would at least take one branch of the government back to the people. ~~the~~

Vote for me to be that servant and I promise you the American dream will be restored back to you the kings and queens of Western Kentucky. You will have a say in what happens to you.

With a clean conscious God's work must truly be our own. Let's take this country back.

Thank You.
