

I'm Charles Hatchett

I'm the Democrat for 1st District U.S. House of Representatives

Give Freedom To Get Freedom

When you listen to the news. We begin to think hope is gone. But it's not checkmate for the United States. We can make a move and the move must be patterned after a similar move that worked in our past. Three (3) men in Detroit Michigan were the economic powers of that era. Wages at that time were .50 cents a day. Henry Ford was making cars and after only a few sales the sales stopped. Average people were not paid enough to own a car. Mr. Ford went to Thomas Edison and said I believe that Americans will have to make at least \$4.00 a day in order to own a car. Thomas Edison said, I am already paying \$4.00 a day I want every American to electrify their home. I want prosperity to flourish and light up the world. Then Ford went to Harvey Firestone and said I want you to raise the pay to \$4.00 a day for your workers. Firestone said, no American is worth more than .50 cents a day. I will not pay. I don't believe some of them are even worth .50 cents a day. Henry Ford said if you want to put your tires on my cars you will pay \$4.00 a day and Mr. Firestone did raise his workers pay to \$4.00 a day this was a 800% raise to his workers.

America is still the great marketplace for the world. It's this simple. We can no longer accept goods where the workers are paid a slave wage. If the equivalent of our minimum wages is not paid don't sell it in the USA. Some of the Asian workers are paid as little as .18 cents per hour. I believe in giving these workers a large raise. Because of this raise you will see lots of companies returning to the USA. Also jobs in Mexico would help them to stabilize the immigration problem. Instead of \$2.50 per hour they will receive \$7.25 per hour. Give freedom to get freedom. Our district with a congressional council over seeing the congressman can propose this idea, do unto others, as you would have them do unto you. Jesus Christ the Son of God proposed this idea and it will work.

Thank you

Charles Hatchett
